MCJ, Inc can now provide drug/impairment screening and biometric solutions via the GSA to State and Local governments.

In June 2008 the President signed Public Law 110-248 permits agencies at the State and Local government level to purchase directly from FSS 84. This is a tremendous step forward in serving agencies that were once only afforded to the Federal government.

This means if you are an agency that works from State and Local government funds you don't need to "bid" on a request. The prices are pre-negotiated and our best price to the GSA and to you!

Search GSA Advantage on line under schedule 84 (Total Solutions for Law Enforcement):

<https://www.gsaadvantage.gov/>

- Terms and prices.
- Prices have been established as "fair and reasonable".
- When purchasing through the GSA you have full and open competition.
- Blanket Purchase Agreement (BPA), eliminating the need for re-negotiation for each purchase and searching for new procurement sources.
